

## **Shire Roundtable Satellite Symposium**

### ***Transforming Lives for Those Living with Rare Diseases in Austria***

**Friday 11 May, 13.00 - 14.00**

With this year's ECRD in Vienna, and looking towards the Austrian Presidency of the European Union, ECRD attendees are invited to join a cross section of Austria's rare disease community leaders to participate in a roundtable focused on the status and pace of Austria's National Rare Disease Plan implementation, as well as the establishment of ERN Centres of Excellence, and review these topics in a European context with a view to accelerating access for patients.
